PUNEET ATMANAND ITI

Software Engineer Intern | Python Developer | Machine Learning | Full-Stack Development
Email: atmananditi50@gmail.com | LinkedIn: linkedin.com/in/puneet-atmanand-iti
GitHub: github.com/puneet-atmanand | Portfolio: puneetai-portfolio.netlify.app

SUMMARY

Computer Science Engineering student (CGPA 9.6/10) and current Junior Software Engineer Intern with hands-on experience in Python, Machine Learning, and full-stack web development. Proven ability to design, build, and deploy end-to-end applications, including ML models, REST APIs, and AI-powered tools, using Flask, FastAPI, React.js, and Git-based version control. Strong foundation in data structures, problem-solving, and API integration, with a passion for applying AI and cloud technologies to real-world problems.

SKILLS

Programming Languages: Python, C, JavaScript, TypeScript
Web Development: React.js, Express.js, FastAPI, Flask, HTML5, CSS3, Tailwind CSS, REST APIs, API Integration
Databases: MySQL, SQLite, MongoDB
AI / Machine Learning: Machine Learning, Scikit-learn, Pandas, Stable Diffusion, Streamlit
Tools: Git, GitHub, Postman

WORK EXPERIENCE

Junior Software Engineer (Intern) | Sep 2026 - Nov 2026
Excelsoft Technologies Pvt Ltd, Mysore

C and Python Programming Intern | Jun 2024 - Sep 2024
International School for Computer Technology (ISCT)

EDUCATION

Maharaja Institute of Technology, Mysore | 2023 - 2027
Bachelor of Engineering, Computer Science - CGPA: 9.6/10

JSS RSH PU College, Dharwad | 2021 - 2023
PCMB - 94%

PROJECTS

Smart Crop Recommendation | Python, Pandas, Flask, Scikit-learn, Git
GitHub: github.com/puneet-atmanand/Smart-Crop-Recommendation-
- Developed a machine learning model that recommends suitable crops based on soil and climate parameters.
- Performed data preprocessing and feature analysis with Pandas, then trained and evaluated models using Scikit-learn.
- Delivered predictive crop recommendations through a Flask application, with Git version control.

Text to Image Generator | Python, Stable Diffusion, Streamlit, Git
GitHub: github.com/puneet-atmanand/Text-to-Image
- Built an AI text-to-image generation system using Stable Diffusion with a command-line interface and a Streamlit web UI.
- Implemented prompt-based image synthesis with negative prompts, seed control, and customizable generation parameters.
- Optimized inference performance with automatic GPU/CPU detection.

Sky Smart | Python, Automation
GitHub: github.com/puneet-atmanand/SkySmart-AI-Flight-Booking-Price-Prediction-Platform
- Developed a Python backend automation system to monitor and control connected devices in real time.
- Designed automation workflows and monitoring logic for centralized device management.
- Improved operational efficiency by streamlining control across multiple devices.

ACHIEVEMENTS

- Academic Topper: recognized for consistent academic excellence and strong command of core computer science subjects.
- Smart India Hackathon participant: collaborated in a team to develop innovative software solutions for real-world problem statements.
- 2nd Prize, Stack Forge Technical Competition | Innovotsava 2026, Maharaja Institute of Technology, Mysore

CERTIFICATIONS

- AWS Cloud Practitioner Essentials - AWS, Coursera (Oct 2025)
- Applied Machine Learning in Python - University of Michigan, Coursera (Jun 2026)
- Java Programming Bootcamp - Stack Forge Club, Maharaja Institute of Technology (Mar 2025)

ADDITIONAL INFORMATION

Languages: English (Professional), Kannada (Native), Hindi
Interests: Fullstack Development, Artificial Intelligence, Cloud Computing
Soft Skills: Analytical Thinking, Problem Solving, Team Collaboration, Communication, Adaptability
